

Technical Data Sheet

Radiator Sealant

Reaction time
works during operation

Application field
for use in all water cooled,
closed cooling systems

Consumption
25 ml per 1 L

Application interval
on demand

Application

1) Check the coolant level. 2) Add the product to the warm cooling system. Move all heater controls to "hot". 3) Let the engine idle for approx. 10 minutes. 4) Check the coolant level again and test if the sealing was successful.

Attention: Open radiator filling port slowly and successively – risk of burning! Do not overdose!

Sufficient for cooling systems up to 12 L capacity.

Description

GAT Radiator Sealant is for use in all water cooled, closed cooling systems (commercial vehicles, passenger cars, industrial heat exchangers). Reliably seals critical hairline cracks and small leaks – quick and easy.

Advantages

The major part of the chemical energy that is bound in the fuel is converted into heat during the combustion process which must be dissipated. Therefore, a fully functional cooling system is of major importance for the operational liability of engines! Helps to avoid expensive repair works. Prevents from loss of cooling liquid and protects against engine damage.

Packing sizes	Packing Unit	Article Number
300 ml	12 x 300 ml	Art. 62011

other sizes available on request

Properties

Physical state	liquid
Color	greenish blue
Density	1,02 g/cm ³
Viscosity	125 mm ² /s

Compatibility

Compatible with all water-cooled, closed cooling systems.

Safety instructions

Follow the application instructions on the technical data sheet (TDS). Read safety instructions in the Material Safety Data Sheet (MSDS) before using this product. Keep out of reach of children. If medical advice is needed, have product container or label at hand and call poison centre/ doctor.

Disposal

Dispose of this product and container according to national/ regional regulations.

Although our information is based on intense product tests and studying and therefore considered as reliable, it nevertheless has solely advisory character.
