

# Technical Data Sheet

**Reaction time**  
works during operation

**Consumption**  
25 ml for 1 L

**Application field**  
for use in all bivalent liquefied petroleum gas (LPG) powered engines

**Application interval**  
on demand

## LPG System Clean & Protect

### Application

Add the product every 3-4 months or every 10.000 km to the gas tank before filling up. 1) Screw the universal adapter tightly into the central threaded hole of the tank filler neck, cut-off the excess threaded part of the adapter, if necessary. 2) Then connect the additive dispensing valve to the end of the adapter with the can turned upside-down. 3) Press the adapter gently in direction of the can for about 30 seconds so that the product has sufficient time to enter in the gas tank. 4) Remove the adapter and proceed with refueling. Recommended for all vehicles with bivalent engines. Sufficient for 50 L tank volume.

### Description

GAT LPG System Clean & Protect is a high-performance product that has been especially developed for liquefied petroleum gas (LPG) powered vehicles. The product protects the complete gas system against corrosion and ensures optimal protection against valve impact. It absorbs harmful moisture and effectively prevents the formation of combustion residues.

### Advantages

Long-term protection of valves and valve seats. Optimized fuel consumption and reduced exhaust gas emission. Extends the life span of the engine.

Packing sizes	Packing Unit	Article Number
---------------	--------------	----------------

120 ml	24 x 120 ml	Art. 62040
--------	-------------	------------

other sizes available on request

### Properties

Physical state	gaseous, aerosol
Density	0,6 g/cm <sup>3</sup>
Flash point	<0 °C

### Compatibility

Recommended for all vehicles with LPG engine

### Safety instructions

Follow the application instructions on the technical data sheet (TDS). Read safety instructions in the Material Safety Data Sheet (MSDS) before using this product. Please keep out of reach of children. If medical advice is needed, have product container or label at hand and call poison centre/ doctor.

### Disposal

Dispose of this product and container according to national/ regional regulations.

Although our information is based on intense product tests and studying and therefore considered as reliable, it nevertheless has solely advisory character.
