**Reaction time**  
works during operation

**Application field**  
for use in all gasoline engines

**Consumption**  
50 ml per 10 liter

**Application interval**  
on demand

## Fuel System Cleaner ULTRA

### Application

Application frequency depends on the quality of the used fuel. But the product also can be used before every tank filling. Product works during operation. Sufficient for 40 up to 60 L petrol.

### Description

**GAT Fuel System Cleaner ULTRA** is a High Performance Additive for use in all petrol engines. Removes operationally caused contamination at the inlet valve, pistons and the entire combustion chamber. Dissolves resins and gums in the carburetor and injection system. Removes coking and unburned carbon residues in the upper cylinder area.

### Advantages

Effect of cleaning after the first application – clean and powerful combustion process and highly efficient engine running. Excellent cleaning of the inlet valves and injector nozzles (suitable for direct injection as well). Positive impact on fuel consumption as well as reduced exhaust gas emissions. Protects against corrosion and considerably prolongs the life span of the fuel system and catalytic converter. Restores the needed power for an optimum engine performance.

Packing sizes	Packing Unit	Article Number
300 ml	24 x 300 ml	Art. 62160
other sizes available on request		

### Properties

Physical state	liquid
Color	light yellow - yellow
Density	0,86 g/cm <sup>3</sup>
Flash point	>23 °C

\*500 km running car with Fuel System Cleaner ULTRA

### Compatibility

Recommended for all petrol engines.

### Safety instructions

Follow the application instructions on the technical data sheet (TDS). Read safety instructions in the Material Safety Data Sheet (MSDS) before using this product. Please keep out of reach of children. If medical advice is needed, have product container or label at hand and call poison centre/ doctor.

### Disposal

Dispose of this product and container according to national/ regional regulations.

Although our information is based on intense product tests and studying and therefore considered as reliable, it nevertheless has solely advisory character.
